

1st International Conference on
**Basic and Clinical
Immunogenomics**
3-7 October 2004 • Budapest, Hungary

**Make a sparkling, new conference with fresh ideas
on immunogenomics together!**

Genomics of antigen receptors and co-receptors, Immuno-Cellomics, Transplantation genomics-MHC gene variety, Functional genomics of antigen presentation and vaccination, Genomics of innate immunity, Signalling, genomics of adapter proteins and transcription factors in immune response, Complement genomics, Onco-immunogenomics, Genetic regulation of apoptosis, Infection and inflammation genomics, Hereditary immunodeficiencies, Autoimmune genomics, Dermatogenomics, Allergy genomics, Genomics of pulmonary diseases, Genomics of reproductive immunology, Genomic approach in glyco-and lipidimmunology, Bioinformatics in immunogenomics and chemical genomics, ...'Last-minute highlight/s/'...
